

## Complete Turn Key Solution

- ✓ The system is very easy to use and is designed to be "plug and capture"
- ✓ Includes all necessary equipment to begin capturing immediately
- ✓ Includes very easy to use software for capturing, editing, and publishing rich media presentations

## Audio, Video, and Image Recording

- ✓ All video, audio, and accompanying slides or graphics are recorded and synchronized as the presentation is given
- ✓ A presentation index is automatically created with slide titles and thumbnails, enabling easy navigation
- ✓ All slide text is extracted and indexed into a fully searchable archive allowing viewers to easily search by keywords

## Presentation Editing

- ✓ Easy to use editing tools built right in
- ✓ Crop or replace captured video
- ✓ Cut long presentations into more manageable clips
- ✓ Add, delete, or edit slides and images
- ✓ Adjust slide timings

## Compelling Playback Experience

- ✓ View rich media presentations in standard web browser
- ✓ View audio/video playback alongside synchronized slides and images
- ✓ Easily navigate to various points of the presentation using index or slide thumbnails
- ✓ Search entire presentation by keyword or phrase
